Senior Full Stack Engineer

Frontend-focused Full Stack Engineer with 10+ years of experience designing, developing, and optimizing **full-featured web applications**. Specialized in modern JavaScript frameworks (**React, Vue, Angular**) for building interactive, user-centric **frontends**, and proficient in **backend** development with **Node.js, Python, and Java**, including RESTful APIs, database integration, and microservices architectures

Core Skills

JavaScript (React.js, Next.js, Vue.js, Angular), TypeScript, HTML5, CSS3, TailwindCSS, DaisyUI, Storybook, API Integration, Node.js, Python (Django, FastAPI), PHP (Laravel, Yii)

Additional Skills

Git, MongoDB, PostgreSQL, SQL, AWS (ECS, Lambda, RDS, S3), Jenkins, GitHub Actions Webpack, Docker, Microservices, RESTful APIs, GraphQL, OAuth/JWT Authentication, Azure, Google Cloud, Blockchain Integrations (Solidity, Hyperledger),

Professional Experience

Senior Frontend Engineer | PillarMarkets | NY, US (Remote)
July 2022 – May 2025

- Led the development of frontend (Next.js, DaisyUI, GraphQL, TailwindCSS) services to enhance platform performance and user experience.
- Designed and implemented highly interactive and responsive user interfaces using Next.js and TailwindCSS, driving improved user satisfaction and platform adoption.
- Built scalable RESTful APIs consumed by Next.js frontend and mobile applications, integrating frontend with secure backend services.
- Worked on integrating frontend with backend services for CRM, analytics, and investor management, ensuring seamless data flow and real-time analytics.
- Contributed to frontend UI/UX improvements using DaisyUI, ensuring consistency and usability across platform.

Senior Full-Stack Engineer | LimeSurvey | Hamburg, Germany (Remote)

Oct 2020 – Apr 2022

- Contributed to LimeSurvey's open-source full-stack platform, focusing on both backend (PHP Yii framework) and frontend (React, Storybook) development.
- Developed and maintained dynamic user interfaces in React, enhancing survey creation, response tracking, and data visualization for users.
- Optimized backend integrations and frontend data handling for complex survey logic, reducing load times and improving user interaction.
- Led the implementation of Storybook for UI component development, improving collaboration between frontend and backend teams.
- Ensured seamless user experience by collaborating closely with frontend and backend teams for real-time survey data reporting and export features.

Full-Stack Engineer | Tayrona Tech Labs | Barranquilla, Colombia (Hybrid)

Jul 2018 – Jun 2020

- Designed and developed full-stack applications using React for frontend and Node.js for backend services, powering blockchain-based educational platforms.
- Implemented interactive user interfaces in React for digital signature verification and secure authentication, ensuring a seamless user experience.
- Collaborated with blockchain teams to ensure smooth data exchange protocols between frontend and backend services.
- Designed backend APIs and services to support blockchain-based identity modules for educational platforms.
- Implemented digital signature verification and secure authentication flows.
- Optimized backend database design for large user imports and verification processes.
- Collaborated with blockchain teams to define data exchange protocols across services.

Junior Full-Stack Developer | Dysruptia | Bogotá, Colombia (On-site)

Feb 2017 – Apr 2018

- Contributed to the development of CMS and API systems, using both PHP (Laravel) for backend and React.js for frontend interfaces.
- Worked on modularizing frontend components to enhance scalability and performance in large-scale web applications.

Education

Universidad Distrital Francisco José de Caldas

Bachelor of System Engineering & Computer Science | Aug 2013 – May 2017
